

The Temporary Spanish Module IVP

Instructions:

Use the [UDS v3 IVP packet](#).

BUT

do not submit v3 IVP C2

do submit [v2 IVP C1S](#) ([UDS v2 Spanish N'psych battery](#))

Important notes

- The Temporary Spanish Module IVP differs from the English IVP only in that Centers will submit neuropsychological test scores with Form C1S instead of Form C2.
- Except for the temporary Form C1S, all other forms in the Temporary Spanish Module IVP are UDS 3 forms.
- Once the Spanish translation of the UDS3 neuropsychological battery is complete, the new v3 of Form C2S will be added to the Spanish Module IVP.
- Forms B5, B6, and B7 (NPI-Q, FAQ, and GDS) were translated into Spanish for UDS2; however, those Spanish-translated forms are not included in this Temporary Spanish Module packet because they have been modified for UDS3. Please see the following instructions on how to deal with this.

FORM SPECIFIC INSTRUCTIONS FOR THE TEMPORARY SPANISH MODULE

Forms B5, B6, and B7

These forms are provided only in English for this Temporary Spanish Module. Please work with the subject or co-participant to complete these forms in English if possible. Otherwise, please indicate that these forms are missing by entering "**97=Other problem**" on Form Z1: Form Checklist and entering "Form not yet available in Spanish" in the comments field.

Form C1S

For this Temporary Spanish Module, please refer to the UDS2 Spanish Module Instructions for Neuropsychological Battery at

<https://www.alz.washington.edu/MEMBER/UDS/DOCS/VER2/spneurinstr.pdf>.

Once the translation is complete, Centers will receive updated Spanish Module forms and Instructions for neuropsychological battery.
