

ADGC vs NIAGADS: Data Access

	ADGC (www.adgenetics.org)	NIAGADS (www.niagads.org)
Objective	AD genetics research	AD genetics / genomics data resource
Data control jurisdiction	Collaborators contribute data. New analysts NEED approval from original data contributors	Data delegated to NIAGADS via <i>NIA data sharing plan</i> . New analysts DO NOT NEED approval from original data contributors
Apply for data access	As ADGC collaborator with a specific analysis plan. Needs sponsoring ADGC member to contact ADGC PI. No-surprises, no overlap with primary analysis	As an independent Investigator . Qualified investigators can submit data access application. Instruction available at NIAGADS website (niagads.org)
Type of data	Access to pre-publication data	Only published data
Manuscript review	Reviews findings and methodology	Only check for acknowledgement
Authorship & Acknowledgment	ADGC as co-author. Acknowledge ADGC and study funding	NIAGADS is not co-author. Acknowledge study funding and NIAGADS
